

Rubicon
International

EMPLOYMENT OPPORTUNITY

INTERNAL APPLICATIONS ANALYST/DEVELOPER

ABOUT RUBICON

Rubicon International is an educational technology services firm known for its leadership in the field of curriculum management. Using Atlas, the curriculum management program developed by Rubicon, the firm partners with public and independent schools throughout the world to plan and implement Web-based curriculum mapping. Rubicon is committed to being a world-wide leader in making a difference in teaching and learning. The Atlas Education Centre, located at Rubicon's offices at the World Trade Center in downtown Portland, is the first educational and training facility devoted entirely to curriculum development and the sharing of best practices.

RESPONSIBILITIES

The Internal Applications Analyst/Developer will work with a team of associates responsible for designing, developing and implementing various web-based (php) applications used internally. The developer will also help implement interfaces to connect internal systems with various third party applications. A strong working knowledge of web programming, including php, AJAX, JavaScript and CSS is required, as well as familiarity with database design and connectivity using MS SQL Server. Applicants must be extremely process-oriented, and have the ability to see both the "big picture" as well as the smallest of details. The developer will also be responsible for writing and maintaining system documentation. The Internal Applications Developer will work closely with the project lead to ensure the highest level of quality and consistency in the company's internal applications.

REQUIRED PERSONAL SKILLS

- Ability to multi-task and handle multiple complex projects at a time. Managing deadlines and reprioritizing to fit the changing needs will occur on a daily basis.
- Process-oriented nature.
- Ability to excel in a team-oriented environment.
- Ability to work independently and without supervision.
- Outstanding analytical and critical thinking skills.
- Excellent organizational skills, with a keen attention to detail.
- Excellent written and verbal communication skills.

REQUIRED PROFESSIONAL SKILLS

- Strong proficiency in hp (Object oriented programming), HTML, JavaScript and CSS.
- MS SQL Server.
- AJAX experience a plus, but not required.
- The ideal candidate would have a sharp eye for color and design, and what elements look pleasing together. Specific web design or graphic design experience (and/or proficiency with Adobe Photoshop) is a plus.

Location: Portland, Oregon

Hours: Full-time

Dates: Immediate

This is a salaried opportunity based on skills and experience.

Interested candidates should email a resume, cover letter and 3 references to:
