Curriculum Quilt
Priorities for our lively maps

• Streamline the template to promote clarity and ease of use. (Make your work easier.)
• Increase uniformity in the format/syntax of our maps. (Make the maps clearer.)
• Create a template model to remind us of the ways in which maps need to be uniform.
• Increase creativity, richness, texture, liveliness with:
  – more vivid, specific description of activities/assessments;
  – attachments that display the full multi-sensory and multi-disciplinary nature of our work.
