

Technology to transform waste and recycling fleet operations

RUBICONPro™ leverages an easy-to-use technology suite for commercial waste collection, creating a digital operating system for independent waste haulers.

RUBICON X

RUBICON X, also referred to as the in cab interface (ICI), is a smartphone or tablet loaded with Rubicon's proprietary application. The device sits in a swivel mount on the dashboard inside the cab of the truck, and is purposely designed to allow any driver to use in any vehicle without hardwiring. The ICI verifies the service collection of an area, in near real-time, without using RFID, and provides drivers with intuitive tools to enhance their workflow.

RUBICON Y

RUBICON Y, also referred to as the Pod, is a best-in-class telematics device that plugs directly into a vehicle's diagnostic port. The Pod monitors and transmits critical data related to vehicle health, vehicle location, and driver behavior.

Portal

The portal is a password-protected, browser-based dashboard that helps centralize decision making, provide operational oversight, and view all data related to a solid waste operation.

Rubicon offers an all-in-one solution

Completely digital operations

Operational cost savings

Enhanced customer service workflow

Service verification without RFID

Features

- Work order management
- Real-time issues reporting
- Integrated billing system
- Turn-by-turn navigation
- Complete telematics
- AVL/GPS
- Daily route management
- Customized reports
- Pre/post trip inspection reporting
- Weight ticket reporting
- Vehicle diagnostics
- Driver performance
- Breadcrumb trails & route playback
- Asset management
- Route completion data
- Web-based portal
- iOS or Android-based App
- Portal monitoring

Rubicon's standard software as a service (SaaS) package includes:

- Hardware
- Software
- Training
- Cellular fees
- Data storage
- Cloud-based hosting
- Upgrades/updates
- Unlimited portal users

Exclusive discounts for your business

Rubicon leverages the scale of our business to negotiate better, "big-business" pricing and terms for all of our hauler partners. With the same buying power as the largest waste services companies, the independent haulers in our network are better positioned to compete successfully against them.
